

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended) A single-use nonwoven anti-microbial wipe comprising a readily releasable anti-microbial agent wherein a fibrous nonwoven substrate is treated with an anionic binder and an anionic anti-microbial agent that is readily released upon being introduced to a water source, wherein said anionic anti-microbial agent is selected from the group consisting of dual quaternary ammonia anti-microbial agent, potassium iodide, and sodium hypochloride.

Claim 2 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said fibrous nonwoven substrate is hydroentangled.

Claim 3 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said anti-microbial agent is a dual quaternary ammonia anti-microbial agent.

Claim 4 (currently amended) A single-use nonwoven anti-microbial wipe comprising a readily releasable anti-microbial agent wherein a fibrous nonwoven substrate is coated with a non-ionic and anionic binder mixture and subsequently coated with ~~a~~ an anionic anti-microbial agent that is readily released upon being introduced to a water source, wherein said anionic anti-microbial agent is selected from the group consisting of dual quaternary ammonia anti-microbial agent, potassium iodide, and sodium hypochloride.

Claim 5 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 4, wherein said wipe is a laminate.

Claim 6 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said anti-microbial wipe is a single-use hard surface wipe.

Claim 7 (canceled)

Claim 8 (new) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said anionic anti-microbial agent is potassium iodide.

Claim 9 (new) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said anionic anti-microbial agent is sodium hypochloride.

Claim 10 (new) A single-use nonwoven anti-microbial wipe as in claim 1, where said fibrous nonwoven substrate comprises staple length fibers consolidated into a nonwoven web.

Claim 11 (new) A single-use nonwoven anti-microbial wipe as in claim 1, where said fibrous nonwoven substrate comprises continuous filaments consolidated into a nonwoven web.

Claim 12 (new) A single-use nonwoven anti-microbial wipe as in claim 4, wherein said anti-microbial agent is a dual quaternary ammonia anti-microbial agent.

Claim 13 (new) A single-use nonwoven anti-microbial wipe as in claim 4, wherein said anionic anti-microbial agent is potassium iodide.

Claim 14 (new) A single-use nonwoven anti-microbial wipe as in claim 4, wherein said anionic anti-microbial agent is sodium hypochloride.

Claim 15 (new) A single-use nonwoven anti-microbial wipe as in claim 4, where said fibrous nonwoven substrate comprises staple length fibers consolidated into a nonwoven web.

Claim 16 (new) A single-use nonwoven anti-microbial wipe as in claim 4, where said fibrous nonwoven substrate comprises continuous filaments consolidated into a nonwoven web.
